

A woman in a blue bikini sits on the edge of a swimming pool, holding a drink. A young girl in a pink bikini sits on a blue inflatable ring in the water. A man in a pink swim cap and goggles is swimming in the pool. The background shows a patio with a dining table and chairs, and a large potted plant.

# SWIMMING POOLS

# WHY CHOOSE AN ALBIXON POOL?

- ➔ Your guide from pool selection to commissioning
- ➔ Wide range of pool options
- ➔ Overflow and skimmer pools
- ➔ Made in the Czech Republic
- ➔ High-quality materials ALBISTONE® and POLYSTONE®
- ➔ Intelligent pool technology control
- ➔ Economical water treatment
- ➔ Simple maintenance, easy winterizing and energy savings
- ➔ Modern design

# QBIG BENEFIT SERIES POOLS

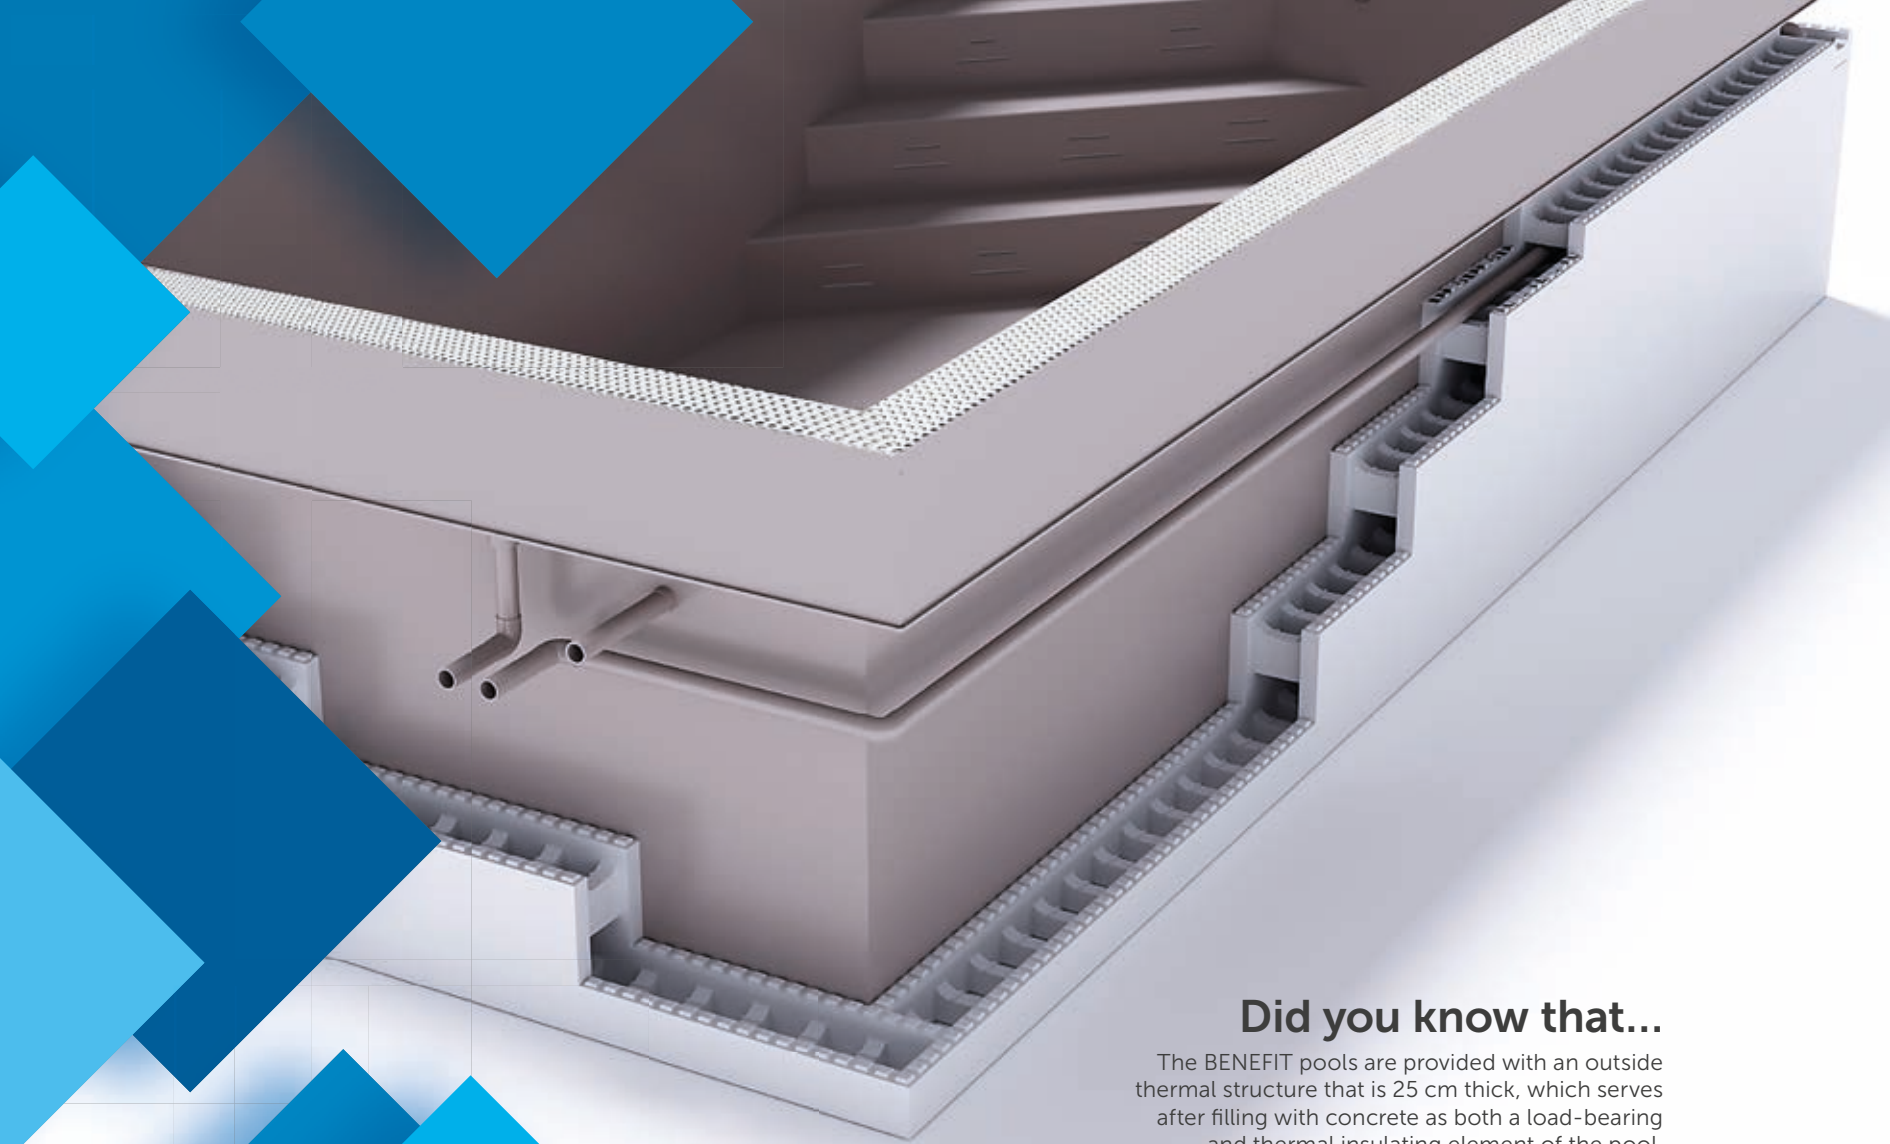

## Introducing our pool solution

### What do the BENEFIT pools provide?

-  Faster construction work? Very much so!
-  Need to drain the water? Not necessary!
-  Preparation for winter? A piece of cake!
-  More economical operation? Undoubtedly!
-  Easier to maintain? Of course!
-  Our own premium-quality structure. Yes!
-  Significant construction cost savings.

### Did you know that...

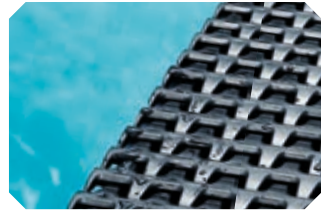

The BENEFIT pools are provided with an outside thermal structure that is 25 cm thick, which serves after filling with concrete as both a load-bearing and thermal insulating element of the pool. This helps speed up the construction and lets you enjoy your pool as soon as possible.

# OVERFLOW POOLS

A clean design, water up to the edge and the feeling of an infinite surface

The X-FLOW grid comes standard with all our QBIG BENEFIT overflow pools.

X-FLOW Grey

X-FLOW White

# QUALITY MATERIALS ARE A MUST

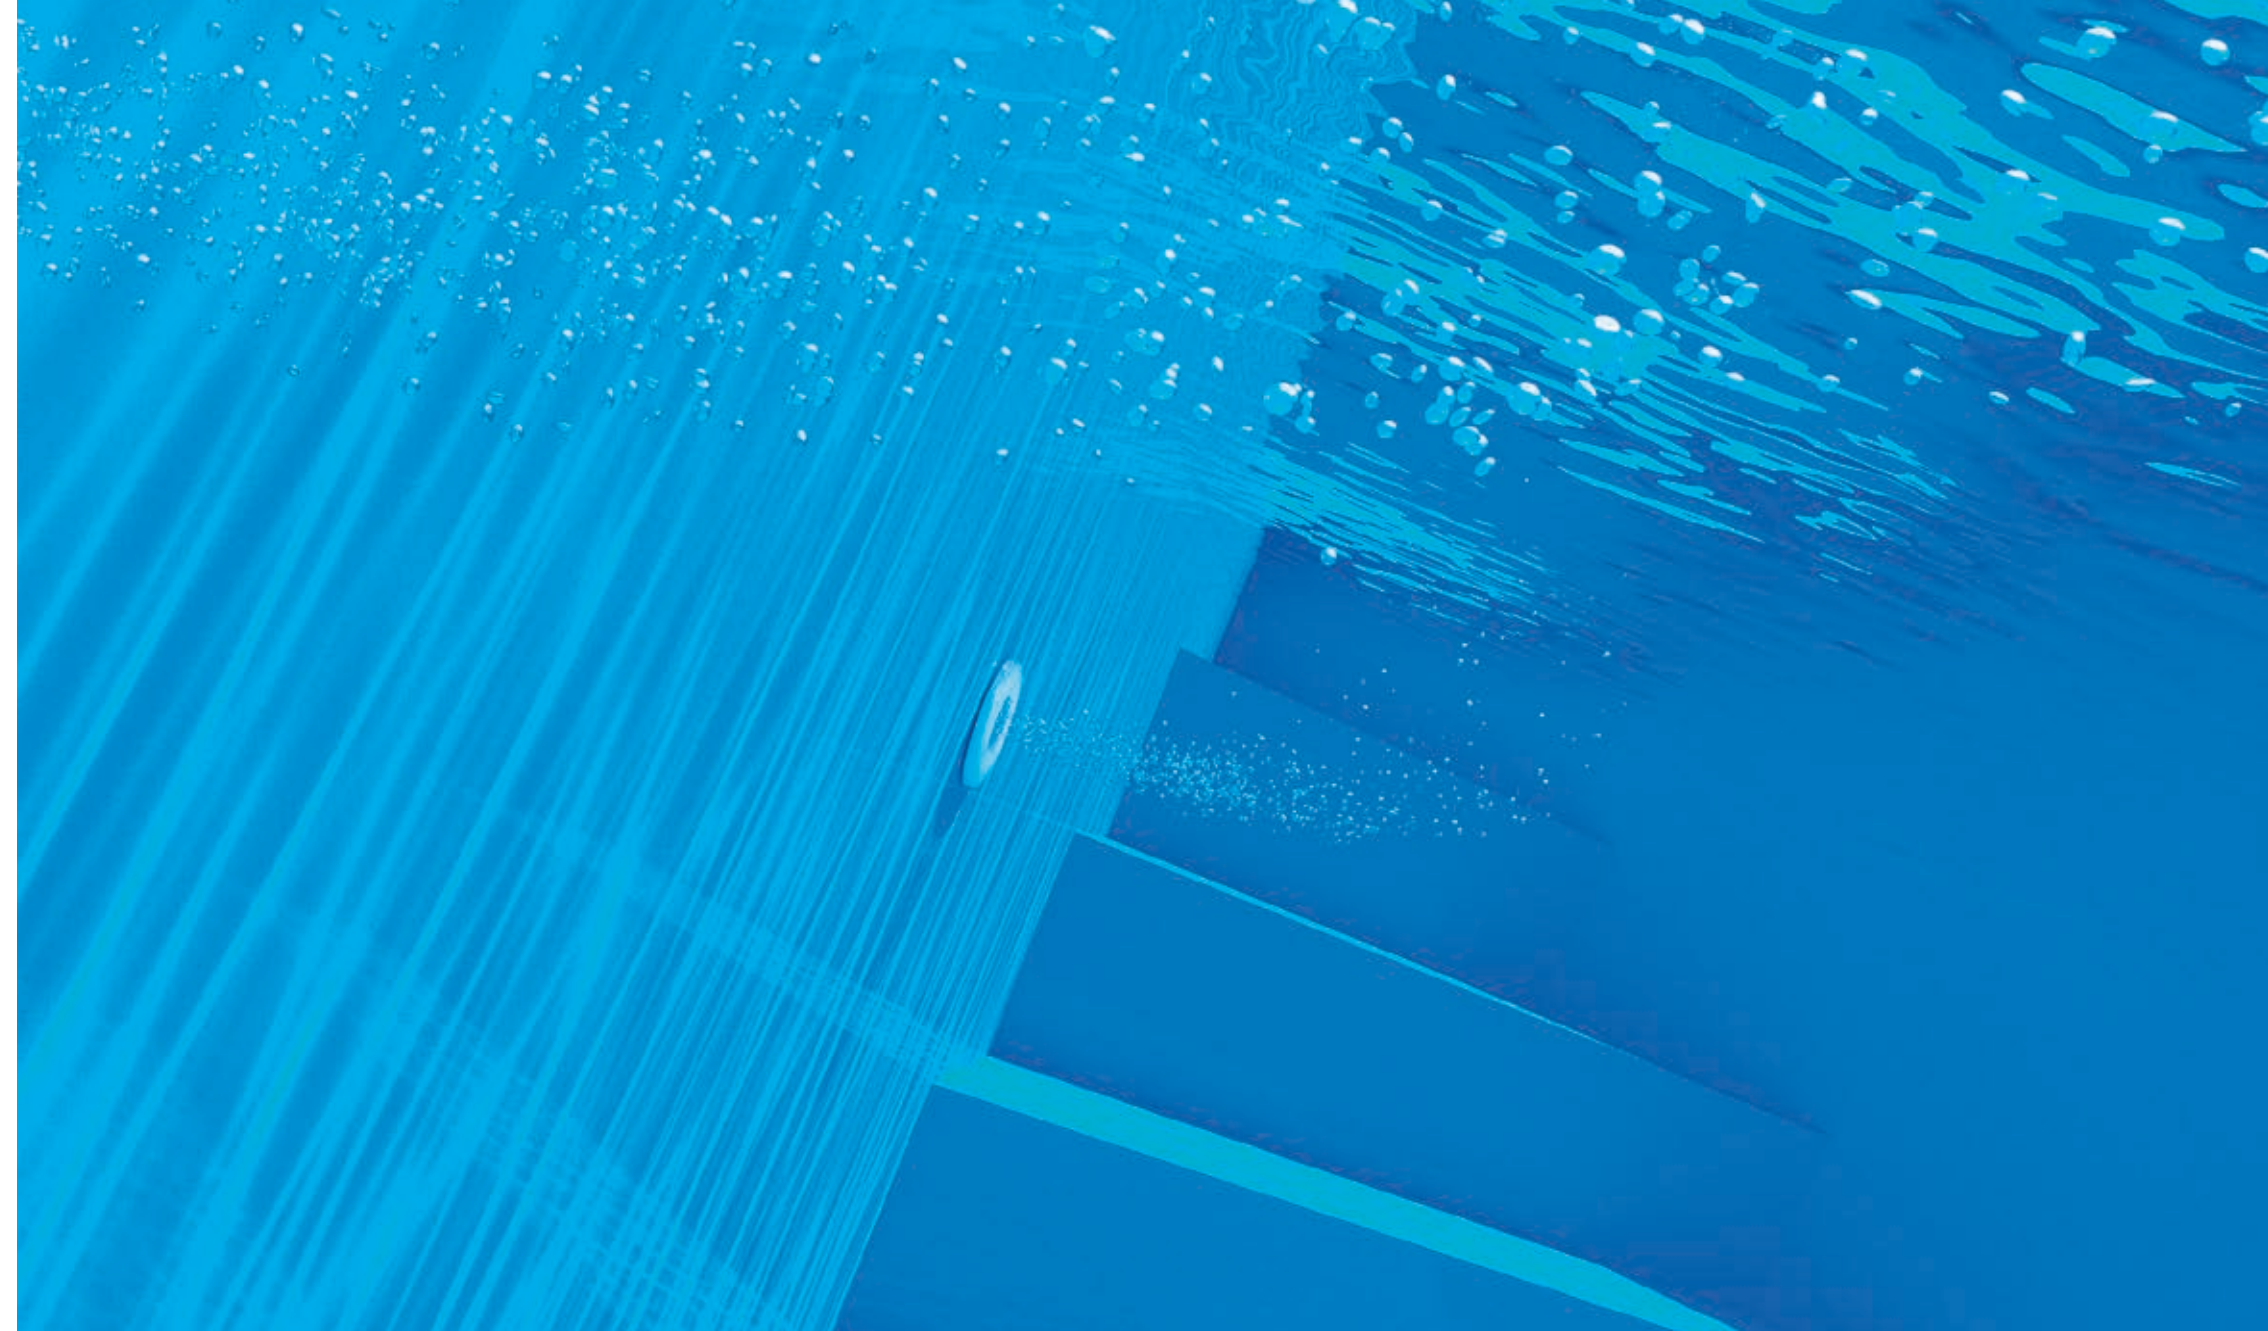

Our swimming pools are manufactured using only premium-quality materials developed specifically for swimming pools

Pools manufactured in blue and grey are made from ALBISTONE®, a material developed by a team of our process engineers and tested in a series of lab tests.

For white pools, we have recently started using the POLYSTONE® P copolymer, a material developed by Röchling Engineering Plastics of Germany for the specific purpose of building pools.

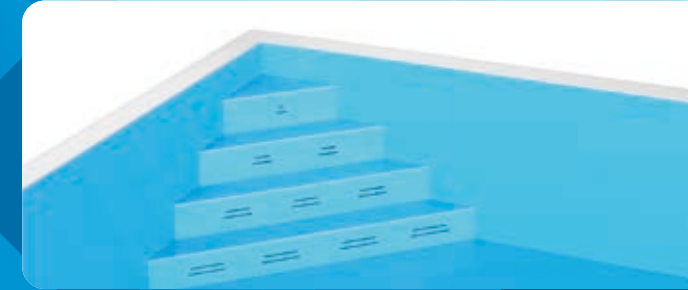

# STEPS SHAPES

A range of steps to suit your preferences.

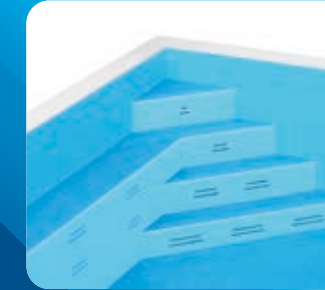

We can make your pool with a square corner to help you utilize the interior of space of any pool size. Whether you are planning fitness swimming, splashing around or relaxing with your family, an ALBIXON pool will always adapt to your needs.

You are the only person who can choose the right steps for your pool. In pools with a depth of 120 cm, there are three steps (four steps when choosing the X-AIR and X-AIR+ versions), while in pools with a depth of 150 cm, there are four steps (five steps when choosing the X-AIR and X-AIR+ versions).

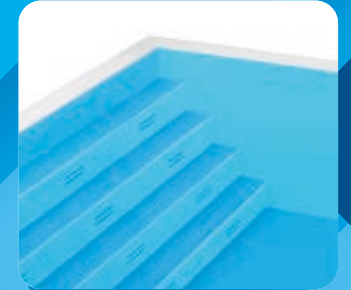

Straight steps over the corner

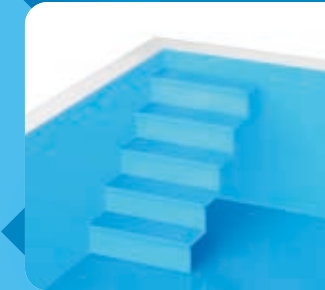

Straight steps over the corner with a bench\*
